

FROM BIRTH TO CHILDHOOD: A CHRISTIAN PERSPECTIVE

From Birth to Childhood: A Christian Perspective presents a selection of works from the National Collection, the majority of which currently form part of the National Museum of Fine Arts Reserve Collection. The general public is thus invited to make the most of this unique opportunity and view works of art that do not normally form part of the permanent display. The works chosen for this exhibition span over a period of four centuries and are executed in a variety of media forms. Artists represented in this exhibition include a number of significant Italian examples and possibly some of the most influential exponents of 19th and 20th century art in Malta. They include amongst others; Antonio Giorgetti, Francesco Grandi, Michele Bellanti, Anton Inglott, Samuel Bugeja and Caesar Attard.
